

January 20, 2014

American Society of Crime Lab Directors Crime Lab Minute

General Announcements

President's Message

ASCLD 2017

Webinar #4 this Wednesday!

I hope you can find some time to attend our next webinar "**Case Acceptance Policies & Guidelines**" featuring ASCLD member Dr. Cecelia Crouse. If you haven't already registered, you still have time by following this link:

[Case Acceptance Policies and Guidelines](#)

The archived version of our last webinar, "**Managing Customer Expectations and Education**" with John Collins is also available by following this link:

[Managing Customer Expectations and Education](#)

Certificates of attendance will be made available for those who have signed up and attended the webinar. If you attended one of the previous webinars but did not print a certificate, you may still obtain one by registering for the archived version.

The Deadline for ASCLD's 1st Leadership Academy is close!

The deadline for registration to **ASCLD's 1st Leadership Academy** is rapidly approaching. We have had an amazing response to date, but can still accommodate a few more registrations. If you or one of your staff are interested in participating, please register as soon as possible. The final deadline for registration is January 31 and the 2 hour weekly webinars begin on February 6th.

We hope you or your staff will take the opportunity to participate in this new and exciting leadership development resource.

Call for Posters!!

The deadline for submitting abstracts for posters and workshops has passed, but there is still time to submit one for a poster. The theme for this year's meeting is "The Efficiency of Quality". If you've got an idea for a poster, please download the form below and return by **March 1, 2014**.

[2014 ASCLD Symposium Abstract Form](#)

Speaking of the meeting

The planning committee still has room for volunteers. Your degree of participation can be very flexible with opportunities ranging from working a shift at the registration table to running the meeting's plenary session. How much time you commit is up to you! If you're interested, please contact President Elect Mills at brady.mills@dps.texas.gov.

Symposium Details...

In the next couple of weeks, we will be releasing the registration information for the Scottsdale meeting. Suffice to say, we're excited about having the membership come together again and are looking forward to an amazing conference. If you have any questions, please contact Brady Mills at brady.mills@dps.texas.gov.

We will be electing new members to the Board of Directors at the business meeting to be held at the Symposium. If you or

Finally, if you have questions about the Academy, please contact Jeremy Triplett at jeremy.triplett@ky.gov.

Jay Henry
ASCLD President

This Week's Forensic Metric: 43

The median turn-around time in days (43) for a Fire Analysis report. The timeline is defined as beginning at the date of the first submission of evidence or specimen to report submission. This information is derived from those laboratories who participated in the 2011-2012 FORESIGHT program.

SOFT Survey

The Society of Forensic Toxicologists (SOFT) Drug Facilitated Sexual Assault (DFSA) Committee is gathering data from laboratories that perform analyses on DFSA cases. This survey (<http://www.surveymonkey.com/s/YD5H2GQ>) is designed to determine the most frequently encountered drugs utilized in suspected DFSA cases. By defining these drugs, the committee's intent is to utilize this information to direct research and define any demographic trends in drug use that may exist.

GC/MS/MS Speed, Sensitivity, and Selectivity Beyond Comparison

Triple quadrupole GC/MS/MS has emerged as a powerful technique for trace-level analysis of drug residues. Shimadzu's GCMS-TQ8030, providing exceptional sensitivity, selectivity, and specificity for detection and quantitation of targeted drugs in the presence of background interferences, is the most powerful choice for your toxicological applications.

Key features include:

- MRM and simultaneous Scan/MRM acquisition modes
- Ultrafast 600 MRM transitions/sec
- True scan speed of 20,000 u/sec
- Fully optimized collision energy for each MRM transition
- Single software platform for all Shimadzu GCMS
- Front-access source for easy maintenance

RTI International's Center for Forensic Sciences Continuing Education is pleased to offer a second premium online course for legal professionals, titled "*Managing Quality and Reliability in the Crime Laboratory: A Lawyer's Perspective*". This low cost training was developed with the support of ASCLD/LAB, the North Carolina District Attorney's Association and the National Association of Prosecutor Coordinators. This course is designed for legal professionals who interface with scientific experts and/or present scientific evidence in courts of law. The course provides information about how accredited crime laboratories control quality, ensure the reliability of results, and work to maintain a high level of customer satisfaction and confidence in the reliability of laboratory services. It is recommended, but not required, that users have taken the course; An Introduction to the Crime Laboratory - Understanding its Role and Purpose before attempting this course.

By the end of this course, you should be able to:

- Evaluate the work of a scientific expert
- Name the two types of scientific analyses
- Name the international body that governs crime laboratory accreditation
- Recognize authoritative documents and court rulings critical to forensic science
- List five warning signs signaling problems in a crime laboratory

If you know of a legal professional who may be interested in taking this course, please direct them to: <https://www.forensiced.org/training/viewcourse.cfm?moduleid=fdf2f9c6-4d9e-4e7c-a6fd-c5301474a49d>. In some states, this course has been approved for 1 hour of CLE and MCLE credits

Conferences

February 17-22, 2014: American Academy of Forensic Sciences in Seattle, WA. See <http://www.aafs.org/aafs-66th-annual-scientific-meeting> for more information.

April 6 -14, 2014: International International Association for Chemical Testing (IACT) in Newport, CA. See <http://www.iactonline.org/> for more information.

May 3-8, 2014: ASCLD Symposium at the Doubletree Resort, Paradise Valley in Scottsdale, AZ, See <http://www.asclld.org/meetings-list/> for more information.

May 11-16, 2014: Association of Firearm and Toolmark Examiners in Seattle, WA. See <http://www.afte.org/TrainingSeminar/AFTE2014/announcements/afte2014.htm> for more information.

The ANSI-ASQ National Accreditation Board/FQS offers 2 workshops for accreditation preparation to the forensic community.

ISO/IEC 17025 and Audit Preparation Workshop for Forensic Test Agencies

Attendees of this three-day workshop will obtain a general overview of ISO/IEC 17025 as it relates to forensic test agencies. All of the elements will be reviewed. The standard's applicability, origin, purpose and marketplace will be discussed. Some of the more important concepts will be reviewed such as document control, internal auditing, proficiency testing, traceability and measurement and method witnessing.

[April 21-23, 2014](#), Tampa, FL

[September 22-24, 2014](#), Alexandria, VA

ISO/IEC 17020 and Audit Preparation Workshop for Forensic Police Agencies

Attendees of this two-day workshop will obtain a general overview of ISO/IEC 17020 for forensic police agencies.

Individual elements of the standard will be reviewed; the standard's applicability to forensic police agencies, origin, purpose and marketplace will also be discussed. Some of the more important concepts, such as document control, internal auditing, proficiency testing, traceability and measurement, and method witnessing will be reviewed.

[April 24-25, 2014](#), Tampa, FL

[May 19-20, 2014](#), Milwaukee, WI

[September 25-26, 2014](#), Alexandria, VA

For more information about these workshops, contact FQS at 703-836-0025, ext 208. To register, please click on any of the dates above.

Paul, MN. See <http://www.mafs.net/news-feeds-1/mafs-2014> for more information.
